

SEPR Play Through - Informed Consent

The purpose of this form is to tell you about the study and highlight the features of your participation in the study.

1 Who is running this?

We are a group of Computer Science undergraduates completing a play-through of a game for a module called SEPR. Members of our group (NPStudios) include:

- Luce Ivatt
- Jordan Spooner
- Alasdair Pilmore-Bedford
- Bethany (Matthew) Gilmore
- Cassandra Lillystone
- Bruno Davies

2 What is the purpose of this study?

This play-through is to provide firsthand feedback on our game.

3 What will I have to do?

Firstly, after reading this you will need to sign it.

You will be given asked to download a JAR file which will allow you to play our game. You will be asked to approach and explore the game as you would any new video game. You can play as long as you want, with the goal to complete the game in whichever way you find fit. After this said time, you will be asked to provide feedback in regards to the game.

You will finish by filling in a demographics form.

4 Who will see this data?

The only people that will see the data we collect from you is the members listed above, and possibly our course leader. We will keep all data anonymous, confidential and secure. It will be stored in a password-protected folder and will be destroyed when the study is completed.

5 Do I have to do this?

You do not have to take part in this. You have the right to withdraw at any moment. You don't have to answer any questions you are not comfortable with or do anything you do not wish to.

6 Can I ask questions?

You have the right to ask any questions throughout the experiment. We will answer them accurately and honestly.

7 Consent

Please sign below that you agree to take part in the study under the conditions laid out above. This will indicate that you have read and understood the above and that we will be obliged to treat your data as described.
